JUROR

Lillian Elliott

Internationally known
fiber artist and educator,
"California Living Treasure."

"I was surprised by the enormous range of entries—in technique, materials, scale, and concept. Although most of the work entered reflects the environment here and has a characteristic fresh feeling, several entries clearly have a sophisticated, polished approach found in textiles world-wide today.

It was exciting to see the large number of three-dimensional entries submitted. I enjoyed the opportunity to see what is happening in fiber today in Hawaii. I enjoyed the show, and hope you will too."

Lillian Elliott
